Directory of Sources	41

Introduction

This resource document was prepared in support of the Intermediate Division geography guideline, and lists a variety of materials judged to be useful to teachers and / or students. However, since time and space limitations made it impracticable to cite all of the resource materials that were identified, in some cases the teacher is referred to the distributor. Most companies are pleased to send you their resource materials on a preview basis. It is advisable, when writing to request material or information free of charge, to use school stationery and include a brief statement of the purpose for which the material is required.

Circular 14, which lists a variety of texts for all courses, is readily available in every school. To avoid unnecessary duplication, textbooks cited in *Circular 14* have not been included in this resource document.

Some reference books and other resource materials may be beyond the budget of an individual department. They are included here for teachers and students who have access to a large municipal or university library.

Prices were verified, wherever possible, in 1979, but are subject to change. Where films are available on loan or for a small charge this has been noted. Schools or school boards wishing to purchase films are referred to the list of sources in "General Reference Materials".

Addresses of publishers and distributors have been given in the Directory of Sources. Wherever possible, the Canadian agent for materials produced outside of Canada is indicated (in parentheses, following the publisher's or producer's name). It should be noted that distributors and agents are also subject to change.

All bibliographies and resource lists become dated quickly. This resource document provides a basic list, but teachers are encouraged to add to it other resources with which they are familiar and listings of new materials as these are produced.

VIDEOTAPES (OECA)

The programs listed by course are available on tape from OECA's videotape programs service (VIPS). Some may already be in the holdings of board audio-visual centres and listed in their learning-materials catalogues.

VIPS provides programs on OECA-supplied tape or customer-supplied tape in the following formats: 1/2" cartridge, 3/4" cassette, 1/2" open reel, and 1" open reel. Programs may be grouped on each tape according to customer specifications.

Ordering procedures vary from board to board. Check first with the audio-visual-materials co-ordinator.

Programs are ordered from OECA on a VIPS order form. For order forms contact: OECA, Central Order Desk. Each program must be ordered by its BPN (basic program number).

For full details on OECA programs, prices, and schedules consult *TV Ontario*, the OECA booklet available in every school.

Man Builds, Man Destroys

Home to the Sea. BPN 113211. Colour, 27 min. Discusses the world's oceans and their role as an important future source of food.

The Seamless Web. BPN 113213. Colour, 27 min. Describes how action on one environmental front causes reaction on another and discusses how we can make wise environmental choices.

Six Fathoms Deep. BPN 010545. Colour, 30 min. Examines the problem of (and some solutions to) the pollution of our oceans through oil spills.

Waste Not. BPN 113212. Colour, 27 min. Discusses the crucial issue of energy conservation through a study of the effect of the energy crisis on Britain in early 1974.

NFB Programs

Continental Drift. BPN 580251. Colour, 10 min. Treats the topic concisely but clearly. Uses animation to explain concepts such as the rifting of the ocean floor.

The Origins of Weather. BPN 580215. Colour, 15 min. Uses animation to show the major factors that create climate – e.g., the way in which unequal heating of the earth produces winds and moving air masses.

Single Program

Earth: The Restless Planet. BPN 584304. Colour, 25 min.

Examines volcanoes in action. Includes some spectacular footage.

Maps and Aerial Photographs

This section lists producers and/or distributors of maps and aerial photographs. Some notation of special characteristics of the suppliers' products has been given, but more specific and comprehensive information can best be acquired by writing for a catalogue. See the Directory of Sources (pp. 41-48) for addresses.

United States: Department of the Interior, Geological Survey, Information Office.

Prepares and supplies topographical, geological, and hydrological maps. Price list available. These are accurate maps of the physical features of the country. They provide the scientific information essential to the development of the land, mineral, and water resources of the United States. Geological maps of the moon and topographical maps of Antarctica are also available, as are a variety of aerial photographs.

United States: Government Printing Office.

Supplies Central Intelligence Agency (CIA) Maps. Excellent introductory maps are available for every country in the world. In addition to the main map, three or four thematic maps showing population, land use, economic activities, etc., are included.

North America*

Government Materials

Many foreign governments produce informational literature of a high quality. This section directs teachers to sources (embassies and government departments) rather than specific titles, although some notation of the materials' special characteristics has been provided. See the *Directory of Sources* (pp. 41-48) for addresses.

Unless changes of policy have taken place since the time of writing, teachers should be able to obtain such material free of charge. Requests (for single copies only) should be made on school stationery and should include a brief statement of the purpose for which the material is required (e.g., school library reference).

Haiti: Embassy of Haiti.

Two excellent books (one illustrated) and a good road map are available.

Mexico: Embassy of Mexico.

Supplies heavily tourist-oriented material. The pictures are useful but the geographical information is limited.

Ontario: Ministry of Energy.

Supplies a pamphlet – "Energy Information Sources and Resources for Schools" – listing booklets, papers, periodicals, films, etc. Many are free.

Trinidad and Tobago: High Commission of Trinidad and Tobago.

An excellent resource book, *Trinidad and Tobago: Ten Years of Independence* (1972), is available. Numerous fact sheets (on agriculture, culture, the economy, topography, etc.) and a catalogue of films may be obtained from the same source.

United States.

Each government department produces material, both printed and audio-visual, related to its jurisdiction. Catalogues are available for most of them. Some agencies and departments from which teachers might request booklets and film lists are:

United States Department of Agriculture,
Office of Communication;

United States Department of Defense, Department of the Air Force, Directorate of Administration;

United States Department of Defense, Department of the Army, Office of the Chief of Engineers;

United States Department of the Interior, Bureau of Outdoor Recreation;

United States Department of Transportation, U. S. Coast Guard;

United States Environmental Protection Agency.

VIDEOTAPES (OECA)

Africa**Man and His World, Part 1**

Man Changes the Nile. BPN 001062. Colour, 15 min.

Pursues the theme of changing, rather than adapting to, the environment. Focuses on the problem of gaining water in a desert.

Masai in Tanzania. BPN 001095. Colour, 15 min.

Discusses the cattle-centred economy (and its attendant lifestyle) of the fabled Masai warriors in the Tanzanian steppes.

Oasis in the Sahara. BPN 001098. Colour, 15 min.

Shows the continual war against sand and the struggle for water that characterize life in the oasis at Ghadames.

Sugar in Egypt. BPN 001206. Colour, 15 min. Offers a view of the Nile Valley with its vast cane fields.

Man and His World, Part 2

Oil in Libya. BPN 001061. Colour, 15 min.

Explores the dynamic changes in the Libyan culture that were set in motion by the discovery of oil there in 1959.

Rainy Season in West Africa. BPN 001096. Colour, 15 min.

Focuses on the way the peoples in this region relate to their natural environment. Rain is regarded as a supernatural phenomenon.

River Journey on the Upper Nile. BPN 001626. Colour, 20 min.

Demonstrates the importance of co-operative effort in the struggle for survival.

Man Builds, Man Destroys

Living off the Land. BPN 113204. Colour, 30 min.

Demonstrates the importance of planning for environmental impact as well as for development. Set in Ghana and Malawi.

See, Hear

A series of thirty programs about North and West Africa. The programs, ranging in length from three to six minutes, are grouped in a series of eleven tapes. Each program is presented in

two versions. The first has no narration, only the music and sounds of the locality. The second version has an accompanying narrative. Further details available from the OECA schedule, *TV Ontario*.

Antarctica

The White Inferno

Antarctica: The Sixth Continent. BPN 003762. Colour, 15 min.

Includes authentic footage of the Franco-Soviet expedition to Antarctica and an account, by French glaciologist Jean-Claude Prayer, of the hardships encountered on the expedition.

Australia and New Zealand

Man and His World, Part 1

Wool in Australia. BPN 001047. Colour, 20 min.

Looks at life on a sheep ranch in Australia.

Man Builds, Man Destroys

A Place to Live. BPN 113216. Colour, 30 min.

Takes a close look at the cities of Jakarta and Auckland. Although in different phases of development, both are beset by problems of ballooning population and the resultant urban sprawl.

South America

Brazil

Amazonia: The Great Challenge. BPN 102024. Colour, 11 min.

Documents the work being done to open up the vast Amazon region of Brazil.

Man and His World, Part 1

Highland Indians of Peru. BPN 001043. Colour, 20 min.

Explores the life found by Peruvian Indians from the highlands when they migrate to Lima, the capital city. Despite the modern city's prosperity, escape from the slums is practically impossible for the Indians.

Miners of Bolivia. BPN 001052. Colour, 15 min.

Examines Bolivia's best-known industry, tin mining, and looks at the hardship of the miners' lives.

Over the Andes in Ecuador. BPN 001045. Colour, 20 min.

Examines the poverty in Ecuador and the significance of the mountains for its people.

Ranchero and Gauchos in Argentine. BPN 001059. Colour, 10 min.

Examines the life of a ranchero, the absentee landlord of a thousand-square-mile hacienda. His prosperity is in sharp contrast to the poverty of the gaucho on his hacienda.

Man Builds, Man Destroys

All the Fish in the Sea. BPN 010555. Colour, 30 min.

Focuses on the way market demands in one country can damage the environment thousands of miles away. Shows that the Peruvian fishing industry, though highly profitable, is based on overfishing and threatens the anchoveta (a species of fish) with extinction.
